Our Story

Smart Stay was created to make hotel stays easier, more comfortable, and better for the planet. We use smart technology to personalize every guest's experience, making everything simple and convenient. Our goal is to combine modern innovation with care for the environment, so every stay feels thoughtful, relaxing, and sustainable.

Vision

To offer a stay that is easy, warm, and intelligently designed. We use technology to support comfort, not replace real human connection. Every detail is planned to make our guests feel relaxed, understood, and at home.

Mission

We want to lead a new direction in hospitality—one where hotels are smart, comfortable, and environmentally responsible. Our vision is to inspire the future of travel, where every guest enjoys a stay that is calm, modern, and meaningful.

Where Comfort Meets Innovation

Logo Concept

The logo reflects the balance between modern smart technology and sustainable comfort. The golden S symbolizes luxury, while the leaf detail highlights eco-friendliness. The circuit-inspired elements represent innovation and AI systems. Together, they express Smart Stay as a place where comfort meets innovation.

Color Palette

The combination of dark green and gold reflects elegance and balance between nature and luxury.

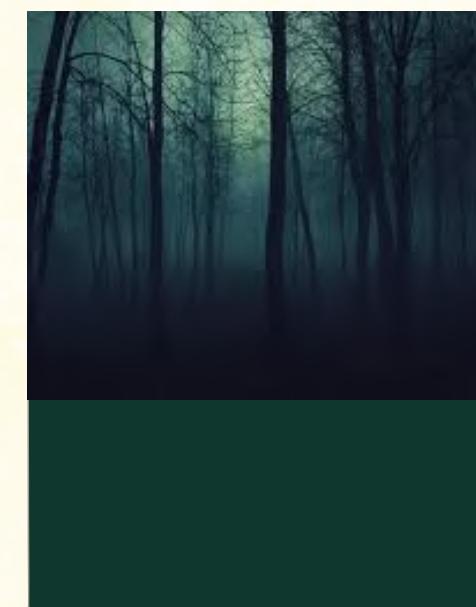

It gives a calm and intelligent energy.

Deep Teal

014040

Reflects calm and trust with a touch of mystery and sophistication.

Dark Turquoise

0F372E

conveys calm confidence, harmony and quiet sophistication.

Dark Gray Turquoise

30554E

Represents renewal, balance and intelligent calm energy.

Teal Green

2B7C75

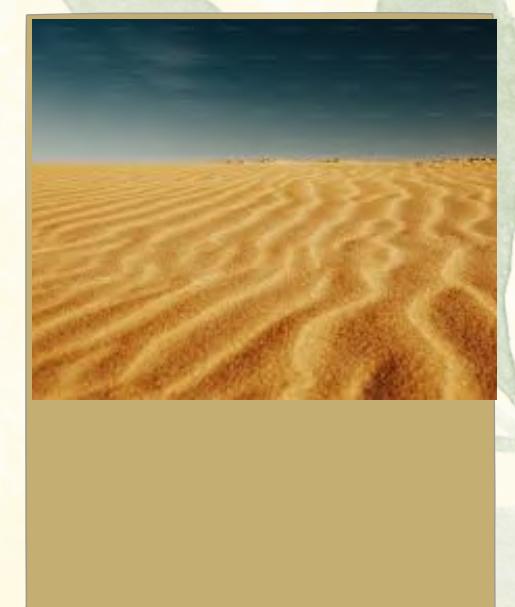

symbolizes success, warmth and Luxury Branding.

Gold Gradient

#F6D46B-> #C89325

evokes comfort, stability and understated elegance.

Golden Beige

C4AE72

Our Hotel's Robot

This is one of the main robots at Smart Stay Hotel. It's responsible for collecting guest reviews, detecting any issues, and helping to solve them while also gathering suggestions for improvement. It's a very intelligent robot that can speak multiple languages, and it was designed by us using Adobe Illustrator.

Our story

Smart Stay was created to make hotel stays easier, more comfortable, and better for the planet. We use smart technology to personalize every guest's experience, making everything simple and convenient. Our goal is to combine modern innovation with care for the environment, so every stay feels thoughtful, relaxing, and sustainable.

Vision

To offer a stay that is easy, warm, and intelligently designed. We use technology to support comfort, not replace real human connection. Every detail is planned to make our guests feel relaxed, understood, and at home.

Mission

We want to lead a new direction in hospitality—one where hotels are smart, comfortable, and environmentally responsible. Our vision is to inspire the future of travel, where every guest enjoys a stay that is calm, modern, and meaningful.

Our services

1. Fully AI-controlled suites adopt instantly to your lighting, temperature, and entertainment preferences. Every feature responds to you effortlessly, creating a personalized and seamless experience. Luxury, comfort, and smart technology come together—all within reach with just one touch.
2. Enjoy total comfort in AI-controlled suites that instantly adopt lighting, temperature, entertainment, and services to your preferences—creating a seamless, personalized stay with just one touch.
3. This advanced AI greenhouse combines sustainability with luxury as intelligent robots cultivate fresh produce in a serene, high-tech environment. Guests enjoy a refined farm-to-table experience powered by precision agriculture and eco-conscious innovation.
4. The hotel is powered entirely by an AI-optimized network of solar panels and wind turbines that deliver clean, efficient, uninterrupted energy. This smart renewable system minimizes environmental impact while providing guests with a luxurious, eco-conscious stay.
5. Personalized robotic food delivery service at your convenience. Automated garment care and delivery for a pristine wardrobe. Seamless integration of luxury and cutting-edge technology for an unparalleled stay.
6. Smart Stay Doctor: AI-powered diagnostic device providing instant preliminary diagnoses and personalized treatment for mild symptoms. Effortless, on-the-spot medical support, enhancing guest comfort and peace of mind with a printed health summary.
